

# Cambridge Education Group (CEG)

## 1 become 3, in an ambitious divestiture transformation that yields agility for this international organisation.

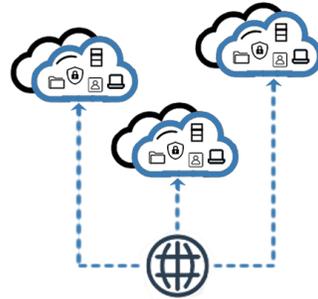

Since 1952, CEG has been delivering the highest quality academic, creative and English language pathway programmes. With a portfolio of international centres in the UK, Europe and USA and an expanding online cohort, CEG is one of the fastest growing independent education providers in the world.

## The Challenge

Following a significant period of sustained growth, CEG was looking to separate into three individual organisational units, namely CATS Colleges, Digital and OnCampus, to further facilitate its goals. The challenge was to appraise the existing CEG estate, making recommendations on improvements to ensure any retained IT was future proof, whilst subsequently separating out the two new organisational units into their own new cloud environments.

## How did we help?

- Consultative engagement, including business analysis, IT estate review, solution scoping and roadmapping.
- Full technical definition and development of the designs for the three new resulting IT cloud environments.
- Complete technical build and migration execution (separation) of all IT infrastructure.
- Full technical operational documentation, end-user guidance and training with on-going managed support.

### Intelligent Services:

- ➔ Advisory
- ➔ Hosting & Cloud
- ➔ Security & EndPoint Mgt
- ➔ Devices & Licensing
- ➔ Productivity Solutions
- ➔ Apps & Automation
- ➔ Managed Service / Support

## Achievements

### Migration & Separation

Establishing 3 new cloud landing zones and tenancies for each business unit for the migration of all their own data, objects and business solutions. All with uninterrupted complete business continuity.

### Cloud-First Approach

Decommissioning of the legacy estate with the adoption of their new bespoke stand-alone hybrid environments. All with supporting integrated identity management via tiered Active Directory models.

### Transformation

Legacy file shares were migrated to a combination of SharePoint Online and OneDrive, improving employee collaboration, efficiency and governance.

*With exemplarily experience in supporting organisations undergoing core structural change through divestitures or mergers. We pride ourselves on building effective and trusted partnerships with our customers, delivering intelligent, targeted and considered IT solutions ensuring business continuity at a time when you most need it.*

## Impacts

Reduction of on-going maintenance costs associated to legacy on-premise IT estate.

Enhanced operational agility from the new cloud estate and modern productivity solutions.

Subsequent divestiture of CATS Colleges organisation to Bright Scholar.
